

RACING EQUIPMENT

KOMPERDELL

“We are family

Looking after our athletes is not just a job for us. We enjoy working and growing hand in hand with them.”

Toni Lorenz and Andreas Lorenz, racing team

As an Upper Austrian, I am proud to represent Upper Austrian companies in the World Cup. That's why I'm very grateful for the support I've received from Komperdell for so many years.

Vincent Kriechmayr

Komperdell: Skiing fast with Style!

Sofia Goggia

Why Komperdell? I very much appreciate the service and the excellent quality.

Petra Vlhova

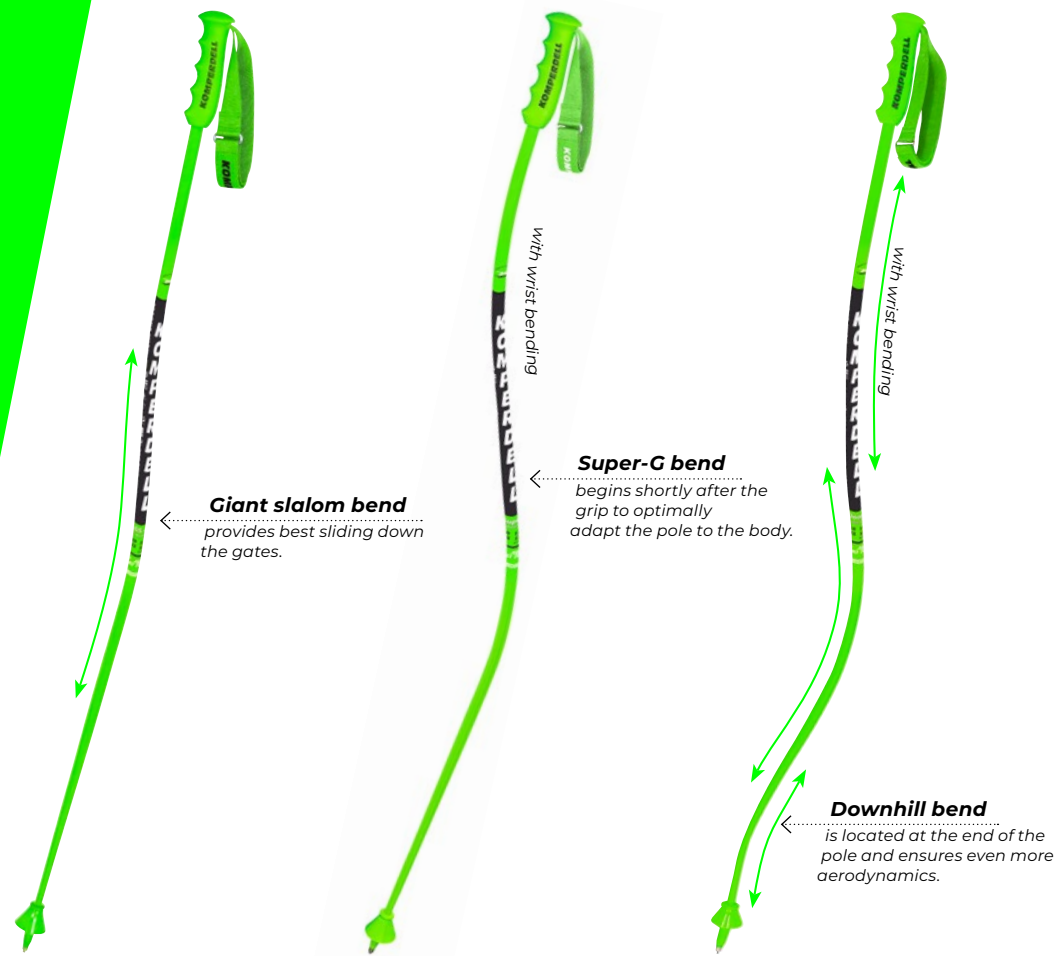

Komperdell is for me the very best choice for years.

Henrik Kristoffersen

PART OF THE TEAM

punch cover
The Worldcup punch cover with integrated thumb protection – developed in collaboration with Marcel and Ferdinand Hirscher – provides efficient gliding and stabilization on snow just like a third ski.

grip & strap
The Race Strap, mounted on all carbon and aluminum racing poles, is additionally fastened to the grip with bolt and screw, thus making tearing off the strap almost impossible.

GREATEST TECHNICAL KNOW-HOW

All of our poles are made from the first idea to the finished series in the heart of Austria. Thanks to decades of experience and greatest technical know-how, we are specialists for ultralight products made of 100% carbon and carbon composite materials.

shaft reinforcement
Our slalom poles are reinforced with a 20 cm shrink tube on the upper part of the shaft to increase break resistance and to guarantee perfect insulation.

carbon
We are leaders in carbon technology because we are the only manufacturer with an own shaft development. Top-quality Japanese Carbon fibers in combination with our unique production technique and resins result in top quality carbon poles with breaking points up to 200 kg.

baskets & tips

On our aluminum poles the tungsten/carbide flex tip with mini race basket or downhill basket is attached.

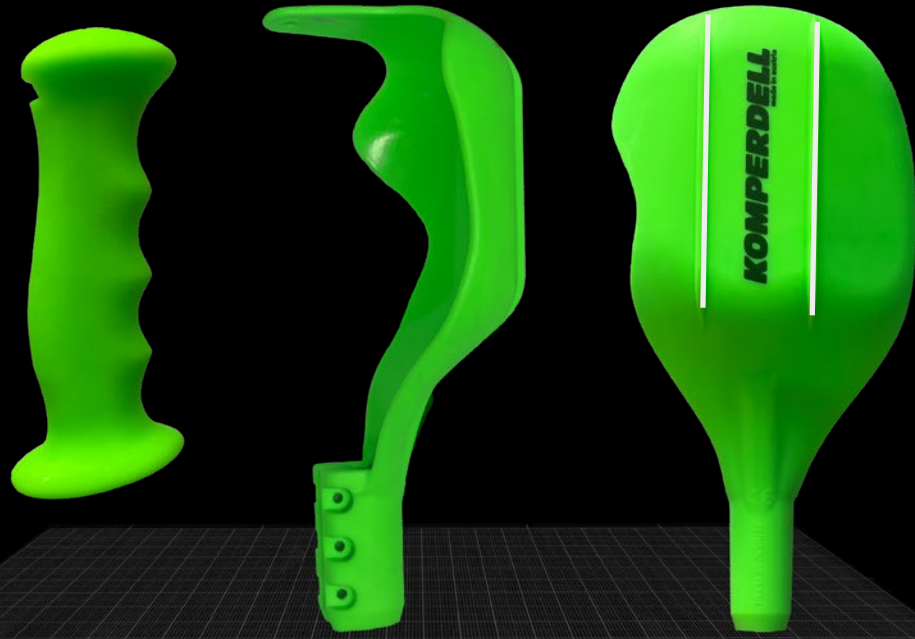

On our carbon poles the flex carbide RACE tip a Slalom basket is attached.

The Komperdell downhill baskets with flex carbide RACE tip have been especially developed for speed races for a perfect slide down the gates.

© GEPA-PICTURES

© GEPA-PICTURES

Innovative & safe

Due to the special shape and the flattened edges our punch protection makes the small but subtle difference to achieve top performances.

Perfect hold

Due to the unique specifications our impact protection allows you to slide light and stable on the snow.

THE THIRD SKI

THE „THIRD“ SKI

The function of the impact protection equals a third ski. Due to its flattened edges, the impact protection prevents slipping.

In my opinion, Komperdell stands for exactly what is necessary and essential in the Alpine Ski World Cup: Perfect material, reliability, durability and most important, familiar atmosphere!
Cornelia Hütter

Komperdell supported me already at a young age and always provides me with the best material. For me, it's a family-run company, where I feel very comfortable.

Marco Schwarz

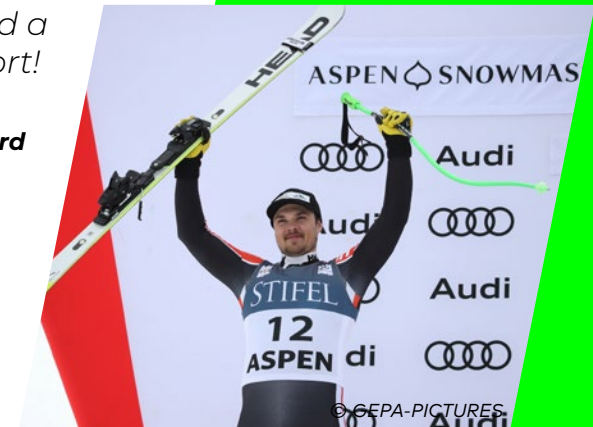

I can always rely on my Komperdell poles.

Federica Brignone

Great people and a great support!

James Crawford

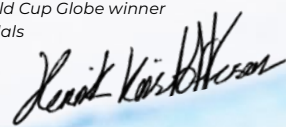

PART OF THE TEAM

CHAMPION'S CHOICE

The world's best athletes trust in us for decades!
In collaboration with our top athletes we continuously work on better solutions to always be one step ahead.

RACING GUARDS

“We are not lone wolves. Above all, the constant exchange with our top athletes helps us to achieve top performance. That’s why we pay particular attention to things that may seem trivial to others - such as the use of real impact protection foam or the ingenious preshaped material of the ski boot. Because an ergonomic and contoured cut leads to top performance.”

The KOMPERDELL development team

shape follows the body contour

length individually customizable

ergonomic shape for the ski boot

close to the body - makes it impossible to get caught on the slalom poles

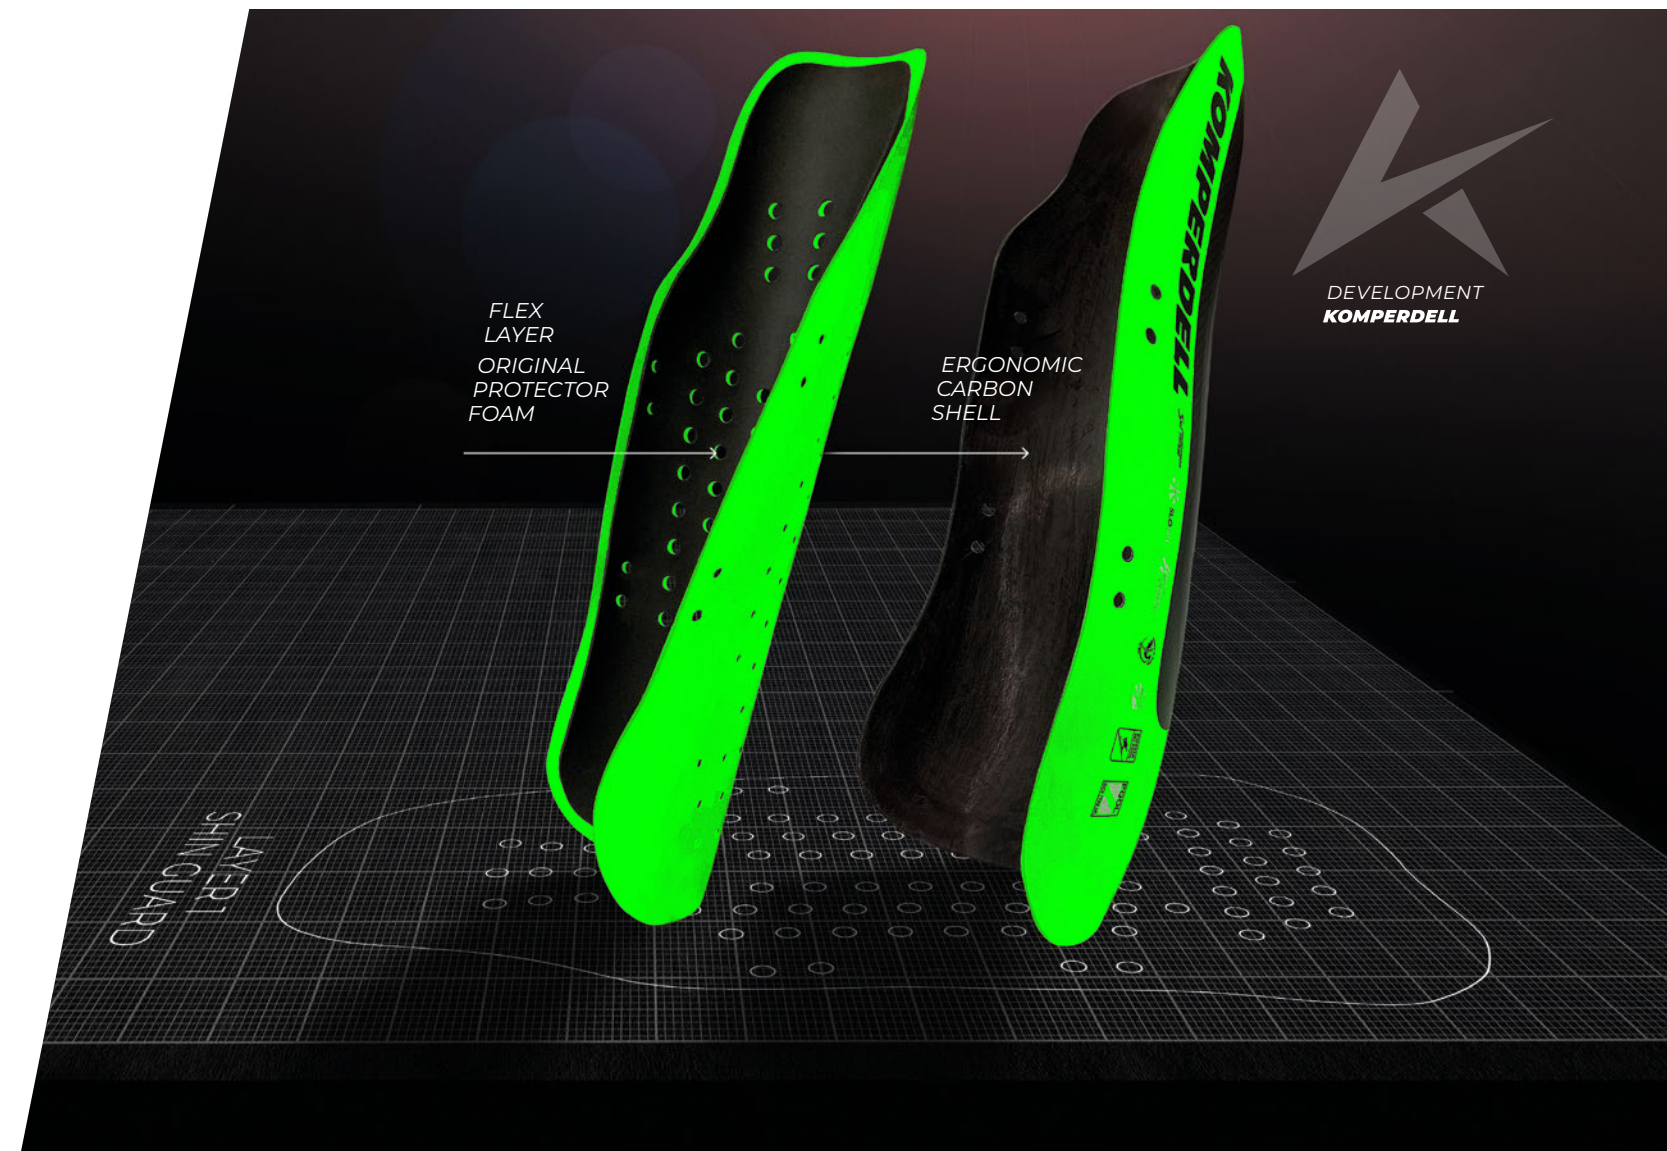

Elbow protection enables close-fitting under the glove

RACING GUARDS

TOP TECHNOLOGY AT ITS BEST

+ ADVANTAGES AT A GLANCE

- + ergonomics close to the body for optimum performance
- + perfect protection thanks to original impact protection foam
- + extremely robust and yet super lightweight comfort
- + sophisticated preshaped material minimizes the risk of injury at the neuralgic points
- + optimum fitting thanks to individual adaptability

DEVELOPMENT
KOMPERDELL

RACING GUARDS

We established our own Carbon development and production facilities more than 20 years ago. We use only the highest quality Carbon fibres and resins for the production of our lightweight and yet extremely tough shin- and elbow guards.
