OUR MISSION

100%
*

* HEART AND
PASSION

* MADE IN
AUSTRIA

KOMPERDELL

* ECO BUT
LOGICAL

* WE KNOW
HOW

* SERVICE WITH
GUARANTEE

PRIMARILY SUSTAINABLE

→ PIONEER IN SUSTAINABILITY

We live, work and think according to our very own values. And we have been doing so for over 40 years – long before the term „sustainability“ became an integral part of our vocabulary.

Because our world is really important to us, because we bear responsibility – not only for ourselves, but also for future generations and not least because we love the natural environment in which we live, it is important to us to avoid waste and use our resources sparingly. For us, sustainable action is therefore not an fundamental principle, but a self-evident need!

→ ECO BUT LOGICAL

We are known for our commitment to high functionality, robustness and stability of our products.

It is therefore essential for us that the ecological aspect never comes at the expense of product quality, but that both must work hand in hand – logically!

→ GREEN BUT HONEST

We do not invest in the purchase of certificates that promote greenwashing.

We have therefore developed our new Zero Waste Program to reflect our complete ecological self-image as transparently as possible.

**REDUCE
+ REPAIR
RECYCLE
= ZERO WASTE**

ZERO WASTE

"Anyone who can put 'Made in Austria' on their products is already doing a lot right when it comes to sustainability.

The fact that Komperdell offers a comprehensive repair and recycle service in addition to its zero-waste programme and resource-saving production methods is worthy of an ISPO Award."

Jury Statement, ISPO Award

ISPO
AWARD
2024

WINNER

Foam grip
We recycle every single gram of waste in our foam grip production. More than **40 tons** recycled annually.

Strap
Set up in the weaving process creates considerable waste. Today every single piece of waste is recycled directly in the factory. **6 tons** of waste recycled annually.

Waterbased colors
environmentally friendly due to reduced emissions.

Powerlock
Closure made from 100% recycled aluminum.

7075 Aluminum shaft
Made of 100 % recycled aluminum. Every single gram of waste in our production gets recycled. More than **12 tons** annually. This equals more than **850.000 aluminum cans**.

Tip & Basket
Every single gram of waste in production gets recycled directly in the factory.

"Sustainability is not just a slogan, it's a core belief of our company."

Thomas Roiser, CEO KOMPERDELL

ZERO WASTE HOW IT WORKS

RECYCLE

Green, but honest – zero waste in production
We do not believe in labels and certificates. Our approach to a more sustainable production is simple and honest. Our goal is to produce our poles without a single gram of waste and with the smallest possible environmental impact.

REPAIR

Repairing instead of buying new
We launched our 3-year free repair service more than 15 years ago. No questions asked – no matter if it is our customers' fault or ours. Our service is part of our belief that quality products must be backed by outstanding service.

RECYCLE

Eco, but logical
If your pole can no longer be repaired, please send it back to us. We have created a dedicated recycling department as we are best suited to separate and recycle the materials in a pole.

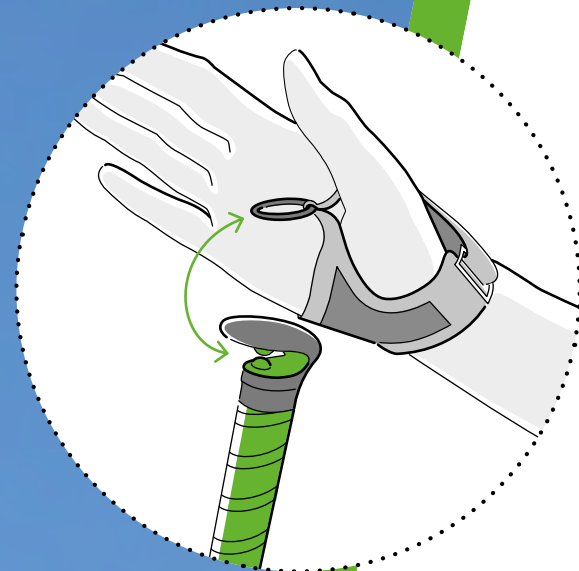

From left to right
Thomas, Max und Raimund – a core part of the development team at Komperdell

FXP CARBON

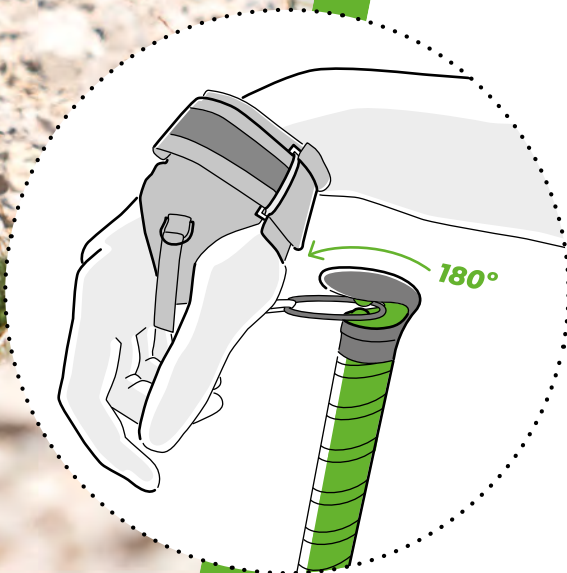

"The wow effect in every race! As soon as I was allowed to test the prototype, I knew I had to have this stylish pole as quickly as possible! Super light, highly functional, handling in seconds - exactly what I have always imagined."

Jens Kramer, professional trail runner

Easy handling

Simply put the rubber over the handle head. Thread, hook in, grip the handle and off you go!

Decoupling made easy

Pull your hand 180° forward over the handle head. Release the rubber with a short pull.

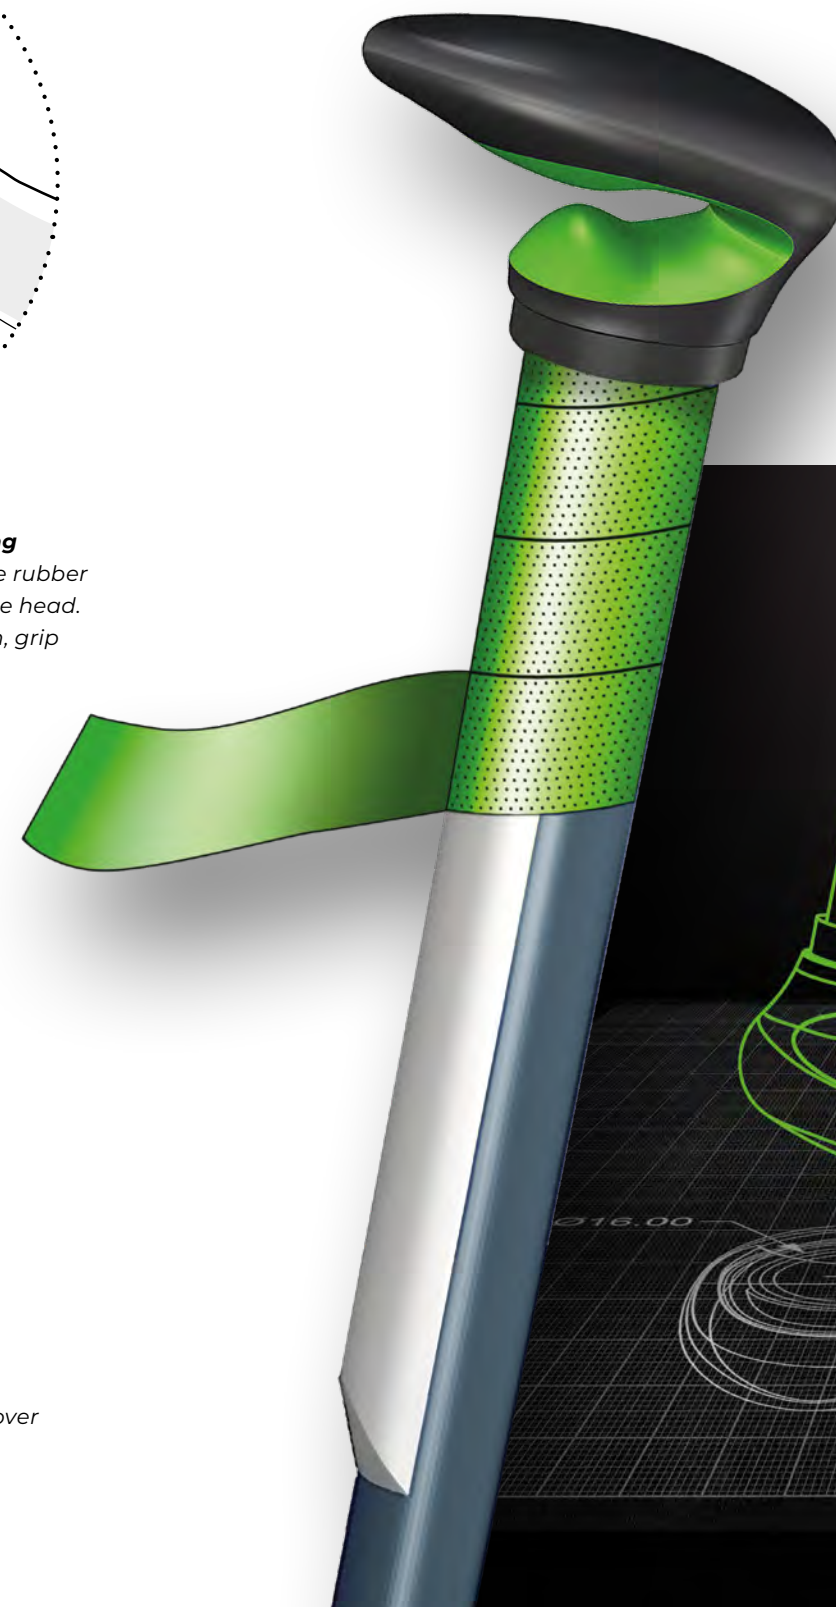

FXP CARBON

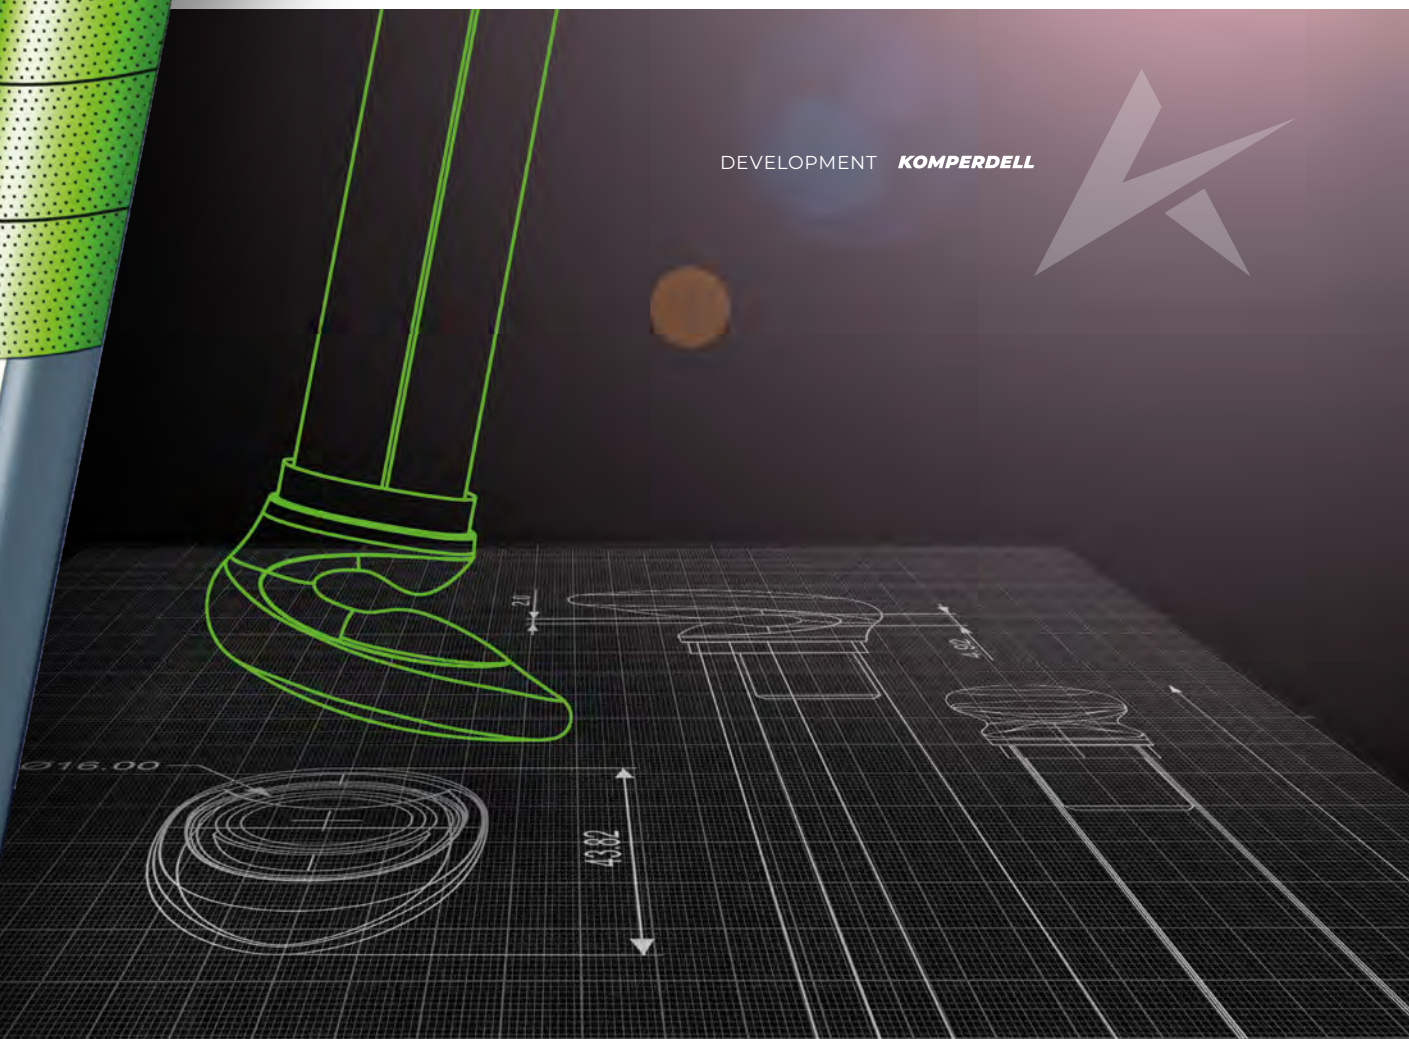

MINIMALISTIC. PURISTIC. EFFICIENT.

+ ADVANTAGES AT A GLANCE

- + style your pole: choose from different non-slip grip tapes to style your pole just as the whim takes you
- + our innovative Fly-strap-system guarantees easy handling and maximum power transmission
- + innovative technology in the grip head enables use in seconds by simply hooking the straps
- + extremely small packed size
- + immediately ready to use thanks to our award-winning self-deploying FXP mechanism

DEVELOPMENT **KOMPERDELL**

FXP CARBON ULTRA

The Carbon FXP trail running poles set new standards in terms of performance, comfort and design. Completely rethought and reduced to the essentials - exactly what performance-oriented trail runners with highest demands are looking for.

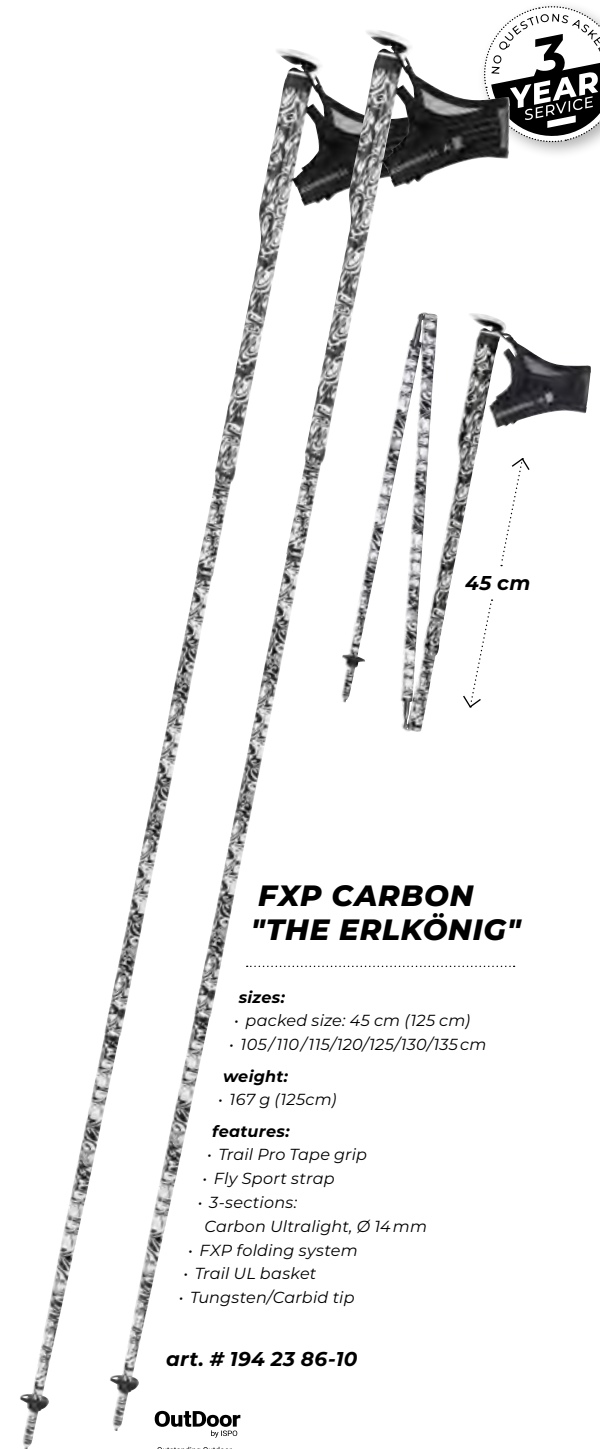

**The combination makes the difference:**

Only 14mm shaft diameter and the self-deploying FXP mechanism guarantee a smooth handling when pulling the poles out of the quiver. Ready to use in a matter of seconds.

+ ADVANTAGES AT A GLANCE

- + particularly small pack size, fits perfectly in conventional quivers
- + the minimized shape saves weight and ensures agile handling
- + our innovative Fly strap system guarantees easy handling and maximum power transmission
- + thanks to the patented FXP folding mechanism, the pole unfolds completely by itself when released

3 YEAR FREE REPAIR SERVICE

→ **REPAIRING INSTEAD OF THROWING AWAY**

Our commitment to sustainability goes beyond environmentally friendly production methods and recycled materials. We take after-sales responsibility seriously through our unique repair service.

→ **INNOVATIVE PIONEERS**

We introduced our free 3-year repair service more than 15 years ago, long before the term sustainability became popular. We are still absolute pioneers here today.

→ **WORLDWIDE UNIQUE**

We repair all telescopic poles no matter what happened – without receipt and no questions-asked. Regardless if it's our customers fault or ours – we are happy to take care of it and contribute to an extended product life-cycle and to protect our environment.
